

**If we  
could  
turn  
back  
time...**

**... now  
we can!**

Frozen semen is now available from all three of these magnificent dogs.

Because of the far-reaching impact that these three dogs had on the breed worldwide during their careers, semen was collected and stored in the USA.

Thankfully, with the help of DEFRA and CLONE UK the semen has now been returned to the UK and is available for use.
